Subject: Please stop Microsoft from Raping us again

Greetings !

I speak for myself and the "little people" who are being raped my Microsoft year after year. The US Department Of Justice is the only entity that has the power to stop this behemoth criminal in it's tracks and we the people look up to it to do so. Please don't let us down, we cannot take it anymore. We understand the need of the DOJ to settle the case against the "dope dealer" of the IT industry, but please do not allow it to snub your (and also our) noses and walk unscathed. As the law of this supreme land requires all criminals to pay for their past crimes and reform, please make this rapist do the same.

Thank you,

Sincerely

Faisal Islam
